SUMMARY

Passionate and proactive Software Engineer with expertise in Java development. Collaborative team player skilled in translating high-level requirements into robust solutions. Proficient in Git and Jira. Enthusiastic about contributing to development.

WORK EXPERIENCE

SpringLogix Pvt Ltd

Product Devloper

2023 January - 2023 June

- Collaborated with a global cross-functional team to design, develop, and implement microservices-based solutions that met high-level requirements.
- Translated detailed designs into robust software, meticulously applying unit testing and defect analysis to ensure top-notch code quality.
- Demonstrated strong analytical skills, problem-solving acumen, and effective communication.
- Effectively managing version control through Git and tracking progress using Jira.

Coding Minutes

Product Designer

2022 June to 2022 December

- Leveraged strong analytical skills to enhance the user interface (UI) of the firm's webpage using Java, resulting in improved user experience.
- Expertly tackled complex design requirements, breaking them down into manageable components, and crafting innovative UI solutions.

EDUCATION

B.Tech

St.Martin's Engineering College

Information Technology

2019-2023

Intermiediate

Narayana Junior College

Mathematics, Physics and Chemistry

2017-2019

SCC

St.Ann's High School

Regular

2016-2017

SKILLS

- Analytics
- Problem-Solving
- Communication
- Collaboration
- Java
- SQL
- Git Version Control
- Jira Project Tracking
- Basic Python

PROJECTS

Contacts Management System

- Effectively applied OOP concepts and Java development skills to design and develop the Contacts Management System.
- Actively engaged in team collaboration through scrum meetings, code reviews, and defect resolution, utilizing Git and Jira
- Resulted in a user-friendly application that seamlessly organized and managed contact information, demonstrating a strong focus on analytical, result-driven, and collaborative approaches.

Github

Todo List Using JavaScript

- Utilizing my prowess in UI development, I crafted an aesthetically pleasing and visually appealing interface that aligned perfectly with established design principles.
- This endeavor showcased my dedication to producing exemplary results, combining analytical thinking, problem-solving skills, and effective communication for a superior user experience.

noteii.netlify.app

Dictionary Using JavaScript

- With a strong foundation in Java development, I skillfully harnessed the capabilities of the Dictionary API.
- This integration aligns with my proficiency in Java, reflecting my ability to implement external APIs within a software solution.
